BIO

Yubik is a Berlin-based musical project founded in 2018. Despite its brief lifespan, the project has already achieved remarkable success. Backed by MobBlack and Still Vor Talent, Yubik's early releases prepared the stage for subsequent well-received projects via Afterlife, Atlant, Oddity, and Radikon.

With recent releases such as "The Runner" on Afterlife, « Walking State » on Adana Twins' TAU, or Delusions are Inexhaustible, Yubik's musical style has continued to adapt and mature, leading to a growing and diverse fanbase.

Yubik has adopted a unique approach to his musical journey, merging cabalistic and groovy tones to create a raw and compulsively danceable sound that transcends borders.

Yubik continues to push the boundaries and explore new territories, whether in the studio or in the club. The success of his EPs and Remixes such as « In the Morning » for Fritz Kalkbrenner, resulted in massive parties and a multitude of previously unreleased music, creating a global buzz around his talent.
